PROFESSIONAL SUMMARY

Recent Computer Science Engineering graduate with a strong foundation in Java Full Stack Development. Skilled in Java, Servlets, JSP, JDBC, MySQL, HTML, CSS, and JavaScript. Experienced in developing dynamic web applications, implementing authentication systems, and integrating frontend and backend technologies.

TECHNICAL SKILLS

Programming: Java, JavaScript, Python, C, C++

Frontend: HTML5, CSS3, JavaScript, Responsive Design

Backend: Core Java, Advanced Java, JDBC, Servlets, JSP

Database: MySQL

Tools: Git, GitHub, Eclipse, VS Code, Apache Tomcat

PROJECTS

Full Stack Web Development Roadmap Portal

- Developed a multi-page educational web application using Java, Servlet, HTML, CSS and JavaScript.
- Implemented login authentication using Java Servlets and HTTP Sessions.
- Created separate Frontend and Backend learning modules with structured roadmaps.
- Designed responsive user interfaces and maintained the project using GitHub.

EXPERIENCE

Data Science Intern – MFIRD, Hyderabad (May 2023 – Jun 2023)

- Contributed to data analysis projects using Python and SQL.
- Cleaned and processed datasets to improve data quality.
- Applied statistical and machine learning techniques to derive insights.

EDUCATION

Bachelor of Engineering (Computer Science Engineering)
Lords Institute of Engineering and Technology, Hyderabad
Graduated: March 2025

CERTIFICATION

Full Stack Web Development (2026)

LANGUAGES

English, Hindi, Urdu
